PROFESSIONAL SUMMARY

Accountant with 2 years of experience running the complete finance and accounts function of a company: invoicing, quotations, receipts, payroll, overtime, bookkeeping and profit and loss reporting. Proficient in Invoice Home and Microsoft Excel. Detail-focused, organised and deadline-driven, with a Software Engineering degree that allows quick adoption of accounting and ERP systems. Seeking the Accountant position in Bahrain to deliver accurate, timely financial management.

CORE SKILLS

Accounting & Reporting	Bookkeeping, profit and loss statements, financial reporting, income and expense tracking, cash flow monitoring, record keeping
Billing & Receipts	Invoice Home (proficient), invoicing, quotations, receipts, client billing, payment tracking
Payroll	Salary processing, overtime calculation, payroll records
Tools	Microsoft Excel, Microsoft Office, Invoice Home, Odoo ERP (learning), Microsoft Dynamics (learning)

PROFESSIONAL EXPERIENCE

Accountant | Design Solutions, Faisalabad, Pakistan **2024 – Present**

- Managed the end-to-end finance and accounts system of the company.
- Created and issued client invoices, quotations and receipts using Invoice Home, and followed each one through to payment.
- Recorded all payments received and made, keeping precise and organised records.
- Processed monthly payroll, calculated staff overtime and maintained salary records.
- Prepared profit and loss statements and financial summaries to support management decisions.
- Tracked income and expenses and monitored cash flow so reporting stayed accurate and on time.
- Maintained audit-ready books and supporting documents with a focus on accuracy and confidentiality.

Cyber Security Intern (Remote) | Arch Technologies, Islamabad, Pakistan **20 Jan 2026 – 20 Mar 2026**

- Gained exposure to security monitoring and threat awareness.
- Documented findings and reported clearly within deadlines.

EDUCATION

Bachelor's Degree in Software Engineering | NUML, Faisalabad Campus **2022 – 2026**

CGPA: 3.37

CERTIFICATION

Cisco Certified Support Technician (CCST) | Cisco **01 May 2026**

Foundational skills in networking, cybersecurity and IT support.

PROJECT

Grow Safe Mobile App (Final Year Project) | AI-powered Android app **2025**

Built with Flutter, Python and TensorFlow Lite. The app detects rice and wheat crop diseases and weeds from images and gives bilingual treatment advice.
